

Kathāsallāpasikkhā

This book, as the name suggests, is written with a view of giving training in Conversational Pali. The usage of simple Pali terms, uncomplicated sentence construction and conversational style of the book makes it pretty 'easy to follow' text for a reader with Basic knowledge of Pali Language.

The conversations in this book revolve round the daily routine in a monastery in Myanmar. Each chapter deals with some or other aspect of Monastic Life. The conversations at times bring up some points in Vinaya Rules, or refer to some Sutta (discourse) relevant to the topic of discussion. The verses at the end of chapters sum up the teachings beautifully.

Thus along with giving training in conversational Pali, the book also offers the reader glimpse into the life in a Monastery.
